**DETAILED ACTION**

1. Claims 1, 2, 15 and 18 are currently pending in the instant application.

***Response to Amendment***

2. Applicants' Amendment and Response, submitted December 1, 2008, has been reviewed by the Examiner. Accordingly, claims 3-14, 16 and 17 have been cancelled, and new claim 18 has been added.

***Previous Claim Rejections - 35 USC § 112***

3. Claims 2 and 15 previously rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claim 2 previously rejected for incorporating a figure by reference, i.e. referring to the XRD of Figure I. In view of Applicant's persuasive arguments, the rejection of claim 2 has been withdrawn.

(b) Claim 15 previously rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for crystalline "Form I" of valdevoxib with the specific XRPD found in Figure 1 and on page 2 of the specification, does not reasonably provide enablement for compositions containing said polymorphic form. Claim 15 is herein cancelled, rendering the enablement rejection moot, please see below.

**EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph F. Murphy, Reg. No. 58,313 on February 26, 2009.

The application has been amended as follows:

- A) Please delete claim 15 from the record.

***REASONS FOR ALLOWANCE***

5. In view of Applicant's amendatory changes and cancellations, claims 1, 2 and 18 are allowable over the prior art, as newly renumbered claims 1-3. The following is an examiner's statement of reasons for allowance:

This invention relates to a novel form of crystalline valdecoxib, i.e. Form I of 4-(5-methyl-3-phenyl-4-isoxazolyl) benzenesulfonamide. The allowable compounds are limited to form I as defined by the XRDP of claim 1. Certain diaryl-isoxazole compounds are known in the art as having the ability to inhibit the activity of cyclooxygenase, however the aspect of preparing the instant claimed form I of valdecoxib, with COX-2 inhibitory activity, is novel and unobvious. After a thorough search, the closest of prior art, WO 9806708, was found to teach similar crystalline forms as anti-inflammatories. However the WO document fails to teach or render obvious the instant claimed crystalline form according to the XRDP of figure I, and does not fairly suggest methods of using the instant claimed compounds as COX inhibitors for treating inflammation, etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 1626

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
